

Meet

Alcon Digital Hub

At **Alcon Digital Hub**, we design and develop innovative IT & digital solutions to support our mission to **help people see brilliantly**.

Our hub is a critical part of the global IT and digital organization supporting most IT subfunctions with a particular focus on 3 main areas: Data & Analytics (including Data & Cloud Engineering, DevOps, Machine Learning, Analytics Engineering, Data Management and others), eCommerce (Web Development, Salesforce) and Infrastructure.

We all thrive in a start-up like environment which is fast-paced, fun and exciting. Here, everyone's opinion matters.

Join us and #BeBrilliant!
