

Contina Sp. z o.o. - Your partner for innovative IT solutions

Contina Sp. z o.o. is a dynamic company located in Katowice, Poland, specializing in extensive IT support for businesses. Since its inception in 2016, our goal has been to provide the highest quality IT services that allow our clients to focus on the key aspects of their business.

Our portfolio covers the full range of IT services - from system design and architecture, through programming to system administration. This enables our clients to benefit from modern and tailor-made technological solutions that support the development and optimization of their business processes. We specialize in high-reliability auction systems and solutions dedicated to the operation of large e-commerce systems.

Our team is made up of qualified specialists who combine experience with a passion for new technologies. We form a harmonious and creative collective ready to meet even the most demanding projects. We focus on the continuous development of our employees, believing that their competences translate into the success of our clients.
